

*** New Search Option Available for Real Estate Cases ***

In order to better serve the real estate attorneys and professionals who use the office's website, the Clerk of Courts has added a new search option. All new cases involving real estate, which are filed in the Court of Common Pleas, can be searched for by using the county parcel i.d. number or the property address. All new real estate cases filed with the Clerk will be required to include the relevant parcel i.d. numbers at the time of filing. This new tool should be especially helpful to those who perform title searches. The link to the search page can be found on the menu bar under Court Records or on the List of Available Searches page.

Sincerely,
Tracy Winkler
Clerk of Courts
